Subject: USDOJ vs. Microsoft Anti-Trust SETTLEMENT...

Hello USDOJ,

I disagree with the latest settlement between the USDOJ and Microsoft. I believe the penalties agreed upon are not strong enough to prevent Microsoft from exercising its monopolistic (racketeering) power. The earlier remedy established by Judge T.P. Jackson to break-up Microsoft into two entities - Application and Operating Systems companies - should be reinstated. Also, the latest settlement offer by Microsoft to have it "donate" ("bribe") Computers / Software to American Public Schools only furthers their monopoly hold on America.

Thank you,

John D. Highberg
